GENERAL CLAUSES OF HULL INSURANCE

Chapter 1 Liability for indemnification

(Perils insured against)

Article 1

1. Subject to the provisions herein contained and in the Special Clauses as specified in the Policy, the Company shall be liable to indemnify the Assured for any loss caused to the insured interest as a result of sinking, capsizing, stranding, grounding, fire, collision or any other maritime perils (hereinafter referred to as "the Accidents") encountered by the vessel specified in the Policy (hereinafter referred to as "the Vessel").
The Company shall also be liable to indemnify the Assured for any loss caused by land perils when these perils are specially agreed to be covered.
2. Losses caused to the insured interest as referred to in the preceding paragraph include a total loss, cost of repairs, general average contribution, collision damages, sue and labor expenses, and other losses, expenses and damages.

(Scope of the subject-matter insured)

Article 2

1. Where a vessel is the subject-matter insured, in addition to the hull and machinery, it shall include, unless otherwise specifically agreed, the following articles which the Assured either owns or hires, and which are on board the Vessel. Those which the Person effecting the insurance either owns or hires shall also be treated in the same manner:
 - (1) appurtenances and fittings
 - (2) all articles for use and/or consumption in connection with the Vessel's employment, such as fuel, provisions and stores
2. Notwithstanding the provisions of the preceding paragraph, a launch, among the appurtenances, shall be deemed to be included in the subject-matter insured even while it is separated and away from the Vessel, as long as it is being used for its proper purpose.

(Total loss)

Article 3

1. When the Vessel has been lost or so seriously damaged as to be beyond repair, it shall be deemed a total loss.
2. The Assured may also make a claim for a total loss in the following cases:
 - (1) where any of the estimated amounts of cost of repairs, general average contribution or sue and labor expenses (limited only to those expenses as provided for in Article 7-1-(1), or the aggregate amount of these above, exceeds the insured value of the Vessel.
 - (2) where the Vessel has been missing for 60 days counting from the day on which news of her was last received.
 - (3) where the Assured has been deprived of the possession and use of the Vessel for a continuous period of 180 days. ,
3. In the cases provided for in items (2) and (3) of the preceding paragraph, the Assured may make a claim for a total loss even when the Policy terminates before the expiry of the respective periods specified therein.
4. Under this contract of insurance, the Assured may not make a claim for indemnity by way of abandonment of the Vessel to the Company.

(Cost of repairs)

Article 4

1. Cost of repairs means the reasonable cost and expenses for such repairs to damage sustained by the Vessel as are necessary to reinstate the Vessel in the condition she was in immediately before the damage occurred.
2. The cost of repairs as provided for in the preceding paragraph shall include the following costs and expenses which are necessary to repair the damage sustained by the Vessel excluding, however, such costs and expenses as falling under general average contribution, sue and labor expenses or as those which are necessary to be incurred regardless of the occurrence of any accident:
 - (1) costs and expenses reasonably incurred by the Vessel in proceeding, immediately after she sustained damage, to the nearest place for repairs; provided that where, in order to save on the cost of repairs, the Vessel proceeds to a place other than the nearest place for repairs with the consent of the Company, any extra costs and expenses reasonably incurred in so doing shall be limited to the amount of any saving in the cost of repairs.
 - (2) costs and expenses reasonably incurred by the Vessel in resuming the voyage originally contemplated immediately after completion of the damage repairs.
 - (3) costs and expenses reasonably incurred by the Vessel in undertaking sea trials after completion of the damage repairs.
3. The cost of repairs as provided for in paragraph 1 of this Article shall include the cost of temporary repairs in the following cases excluding, however, such costs and expenses as falling under general average contribution:
 - (1) when the necessary materials or parts for permanent repairs are unavailable for such a period of time as to cause substantial delay in effecting the permanent repairs.
 - (2) when the temporary repairs are effected in order to save on the cost of permanent repairs; provided that the cost of such temporary repairs shall be allowed only up to the saving in the cost of permanent repairs thereby achieved.
4. In the following cases where temporary repairs are effected to the Vessel, the cost of such temporary repairs other than costs and expenses falling under general average contribution or sue and labor expenses shall be included in the cost of repairs as provided for in paragraph 1 of this Article:
 - (1) where the Assured does not make a claim either for the cost of permanent repairs or for the cost of repairs as provided for in paragraph 3 of Article 27.
 - (2) where the Vessel becomes a total loss before effecting permanent repairs.
5. Where repairs to the damage caused by any of the Accidents (hereinafter referred to as "Damage Repairs") require the Vessel to be put in a drydock or on a slipway, the cost and painting expenses of anti-fouling paint (inclusive of the cost of scraping the Vessel's bottom) shall, subject to the provisions in the Special Clauses, be included in the expenses as provided for in paragraph 1 of this Article. Only that part of the cost and painting expenses of boot-topping and anti-corrosive paints which relates to the damaged area shall be included in the expenses as provided for in paragraph 1 of this Article.
6. Where Damage Repairs and other repairs and/or inspection (hereinafter referred to as "Owners' Works") of the Vessel are effected concurrently, and both of them require following expenses to be incurred, those expenses as calculated below shall be included in the expenses as provided for in paragraph 1 of this Article:
 - (1) one-half of the cost for putting on and off a slipway or entering and leaving a drydock
 - (2) one-half of the slipway dues or the drydock dues for the days during which both Damage Repairs and Owners' Works are effected concurrently
7. When the Person effecting the insurance or the Assured employs divers or puts the Vessel on a slipway or in a drydock for the sole purpose of sighting the bottom of the Vessel, with the consent of the Company, immediately after the Vessel has stranded, grounded or has been in collision or contact with any external object other than water, expenses reasonably incurred for employing divers, putting the Vessel on and off a slipway or in and out of a drydock shall be deemed the cost of repairs as provided for in paragraph 1 of this Article, even if no damage be found.

(General average contribution)

Article 5

1. General average contribution means the Vessel's proportion of general average based on the general average statement prepared by an adjuster appointed by the Person effecting the insurance or the Assured, and general average shall be adjusted according to the laws or regulations as provided for in the contract of affreightment or, in case of no such provision in the contract of affreightment, the Japanese laws or regulations or the York-Antwerp Rules, 1994. In a case where any amount allowable in general average is included in the cost of repairs as provided for in Article 4 and has been indemnified by the Company, such amount shall be deducted from the general average contribution. Should the Person effecting the insurance or the Assured fail to appoint an adjuster without delay, the Company shall be entitled to make such appointment.
2. When the Vessel sails in ballast, and the Person effecting the insurance or the Assured suffers any loss due to an act which would be construed as a general average act if there were any contributing interest other than the Vessel, the provisions of the York-Antwerp Rules, 1994 (excluding Rules X X and X X I) shall be applicable correspondingly. The voyage in this context shall be deemed to continue from the port of departure until arrival of the Vessel at the first port thereafter other than a port of refuge or port of call for bunkering only; provided that if there is an abandonment of voyage originally contemplated at any such intermediate port, the voyage shall be deemed to be terminated thereat.

(Collision damages)

Article 6

1. Collision damages means damages with regard to the following losses, which the Assured becomes legally liable to pay by way of damages in consequence of the Vessel coming into collision with any other vessel (including cases where, as a direct consequence of which collision, the other vessel further collides with a third vessel or vessels), and the amount of which has become definite by the final and conclusive judgment of a court or with the written consent of the Company:
 - (1) losses caused to the other vessel (including loss of use of the other vessel arising from the damage caused to her)
 - (2) losses caused to the cargo and/or other property on board the other vessel (hereinafter referred to as "the cargo and/or other property on board the other vessel")
2. Collision damages as provided for in the preceding paragraph shall be indemnified as follow:
 - (1) when the Vessel is solely to blame; the damages to be paid by the Assured for losses as referred to in the preceding paragraph.
 - (2) when the Vessel and the other vessel are both to blame; the damages to be paid by the Assured in proportion to the degree of fault of each vessel (should it be impossible to decide the degree of fault of each vessel, they shall be deemed equally to blame; hereinafter to be so interpreted) and on the basis of each party severally paying in full the amount due to the other without effecting a setoff against each other.
 - (3) notwithstanding the provisions in the preceding two items of this paragraph, when the liability of the Assured is limited by the laws or regulations of Japan or any other country or by international conventions; such part of the definite amount of the limitation fund or of the current value of any property tendered by the Assured according to the above laws, regulations or international conventions as apportioned as the damages for losses referred to in the preceding paragraph.
3. If the Vessel comes into collision with another vessel owned or demise-chartered by the Assured (excluding a launch belonging to the Vessel), the preceding two paragraphs of this Article shall be applicable as if the other vessel were owned or demise-chartered by a third party. In such case the degree and proportion of fault and the amount of losses on each vessel shall be determined by agreement between the Assured and the Company.
4. If no such agreement as provided for in the preceding paragraph can be reached, the matter shall be referred to a sole arbitrator to be appointed by agreement between the Assured and the Company. If no such agreement can be reached, the Assured and the Company shall each appoint an arbitrator and then the two arbitrators thus appointed shall appoint a third arbitrator, and the award shall be decided by the majority vote of such three arbitrators.

(Sue and labor expenses)

Article 7

1. Sue and labor expenses means the following expenses:
 - (1) necessary or useful expenses which the Person effecting the insurance or the Assured has incurred in fulfilling the duty of preventing or minimizing losses as provided for in paragraph 1 of Article 24 (including remuneration due from the Person effecting the insurance or the Assured to a salvor who has salvaged the Vessel independently of a salvage contract when the vessel has encountered any of the Accidents)
 - (2) necessary or useful expenses which the Person effecting the insurance or the Assured has incurred in fulfilling the duty of exercising or preserving a right of claim against third parties as provided for in paragraph 3 of Article 24; provided that when both the losses recoverable under this contract of insurance and other losses are filed or preserved in such a claim against third parties, only such proportion of these expenses as apportioned, according to the respective amounts of losses, to the former losses shall be indemnified.
 - (3) necessary or useful expenses incurred by the Assured in connection with a lawsuit or an arbitration when a lawsuit for damages in respect of losses which are recoverable under this contract of insurance has been instituted against the Assured, and the Assured has contested the lawsuit with the written consent of the Company or has submitted the dispute to arbitration after deliberations with the Company; provided that when the above-mentioned claim for damages includes both the losses recoverable under this contract of insurance and other losses, only such proportion of these expenses for lawsuit or arbitration as apportioned, according to the respective amounts claimed, to the former losses shall be indemnified.
2. When the Person effecting the insurance or the Assured has incurred the expenses referred to in the preceding paragraph in preventing or minimizing losses of the Vessel together with those of her cargo or other property on board, only the proportion of expenses which should be borne by the Vessel shall be treated as sue and labor expenses; provided that those expenses which fall under general average contribution shall be excluded.
3. Cost of repairs for damage sustained by the Vessel in preventing or minimizing the loss shall not be treated as sue and labor expenses. Losses pertaining to cargo, freight, passengers, the Master, Crew and any other person shall not be treated as such either.

(Losses caused by measures for prevention of fire or pollution damage)

Article 8

- Losses caused to the insured interest by any of the undermentioned emergency measures taken by the Japanese or foreign authorities acting under the powers vested in them in consequence of the occurrence of any of the Accidents shall be deemed to have been caused by the Accident in consequence of which the emergency measures have been taken and those losses shall be indemnified by the Company subject to these Clauses and in the Special Clauses as specified in the Policy; provided that in no case shall the Company be liable for the expenses incurred for the emergency measures:
- (1) emergency measures taken for the purpose of extinguishing fire, preventing occurrence or spread thereof or saving human life when such fire has occurred on board the Vessel or when there has been a threat of such fire thereon
 - (2) emergency measures taken to prevent or mitigate pollution, or threat thereof, of the seas, rivers, etc. resulting from oil etc. spilled or discharged from the Vessel.

(Limit of indemnity)

Article 9

1. The indemnity to be paid by the Company shall always be limited to the insured amount per Accident.
2. Notwithstanding the provision of the preceding paragraph, the under-mentioned damages or expenses shall be paid by the Company independently of other claims recoverable under this insurance, but the sum recoverable under each item shall in no circumstances exceed the insured amount:

- (1) collision damages as provided for in Article 6.
 - (2) sue and labor expenses incurred by the Person effecting the insurance or the Assured as provided for in Articles 7-1-(1) and 7-1-(2); provided that in respect of those expenses stipulated in Article 7-1-(1), only such expenses as are incurred by the Person effecting the insurance or the Assured with the prior written consent of the Company when the Vessel is in danger of becoming a total loss shall be recoverable.
 - (3) among the expenses as provided for in Article 7-1-(3), necessary or useful expenses for lawsuit or arbitration incurred by the Assured when a lawsuit for damages for losses as enumerated in paragraph 1 of Article 6 has been instituted against the Assured.
3. The Company shall be liable to indemnify the Assured for losses in such proportion as the insured amount bears to the insured value.

(Period of insurance)

Article 10

1. Where the contract of insurance is for a definite period of time (hereinafter referred to as a "Time Policy"), the Company's liability shall commence, unless otherwise specified in the Policy, from noon of the day specified in the Policy and shall terminate at noon of the day specified in the Policy.
2. The time referred to in the preceding paragraph shall be Japanese Standard Time unless otherwise specified in the Policy.
3. Where the contract of insurance is for a single voyage (hereinafter referred to as a "Voyage Policy"), the Company's liability shall commence, unless otherwise specially agreed, at the time when the Vessel has commenced either casting off moorings or weighing anchor, whichever shall first occur, at the port of departure specified in the Policy and shall terminate upon expiry of 24 hours after either she has dropped her anchor or she has been moored, whichever shall first occur, at the port of destination specified in the Policy. If, however, the Vessel has either commenced loading of cargo or other preparations for the departure for another voyage or she has commenced casting off moorings or weighing anchor, the Company's liability shall terminate at the first in time of any such occurrence even if it is within the said 24 hours.
4. Should the period of insurance expire whilst the Vessel is at sea or in distress due to any of the Accidents and the liability of the Company is undecided, the Person effecting the insurance or the Assured may extend the period of insurance for a period of 30 days by giving notice in writing to the Company prior to the expiration of the original period of insurance and by paying a pro rata additional premium for a minimum period of 30 days. Further extensions can be made under the same rule of the minimum period of 30 days. Even when the period of insurance is extended, however, it shall expire at the time when any of the following situations arises:
 - (1) when the Vessel, which was at sea, has either completed dropping her anchor or completed mooring, whichever shall first occur, at any port of safety.
 - (2) when the liability of the Company in respect of the Accident has been decided or when the repair of the damage has been completed, whichever shall first occur.
5. This contract of insurance shall terminate when the Vessel has become a total loss during the period of insurance.
